LETTER OF ACCEPTANCE

We hereby declare our intention to cooperate with the University of Catania within the framework of the Erasmus Plus, Key Activities 1, Traineeship, for the realization of transnational placements of students and neo graduates. The project aims to support participants in the acquisition and the use of knowledge, skills and qualifications and to facilitate personal development, employability and participation in the European labour market.

We will host (name of the student): Lorenzo Riela for a period of (n. of months) 3 from March 2020 to May 2020, (admitted period for the traineeship from October 2019 – 30 September 2020). The language required during the traineeship will be: English. The language level required A1. The placement offered by the undersigned organization deal with the following activity areas: Fraunhofer EMFT conducts cutting-edge applied research on sensors and actuators for people and the environment. The over hundred employees in the three locations in Munich, Oberpfaffenhofen and Regensburg possess impressive long-term experience and wide-ranging know-how in the fields of microelectronics and microsystem technology. The technology offering of the research institution ranges from semiconductor processes and MEMS technologies over 3D integration to foil electronics. These production-oriented microtechnologies are the basis for the other competence areas at Fraunhofer EMFT: innovative sensor solutions, safe and secure electronics, and micro dosing. The interdisciplinary interaction of these competencies enables the development of truly novel solutions, putting Fraunhofer EMFT in an ideal position for tackling the current challenges in the areas of IoT and Smart Systems.
